

FR8tech

Freight Technologies (NASDAQ: FRGT)

November 2022

Fr8app is a **B2B Marketplace** powered by **AI** and **Machine Learning**

One of the most connected & intelligent **freight platform** for **cross-border shipping** in the USMCA region.

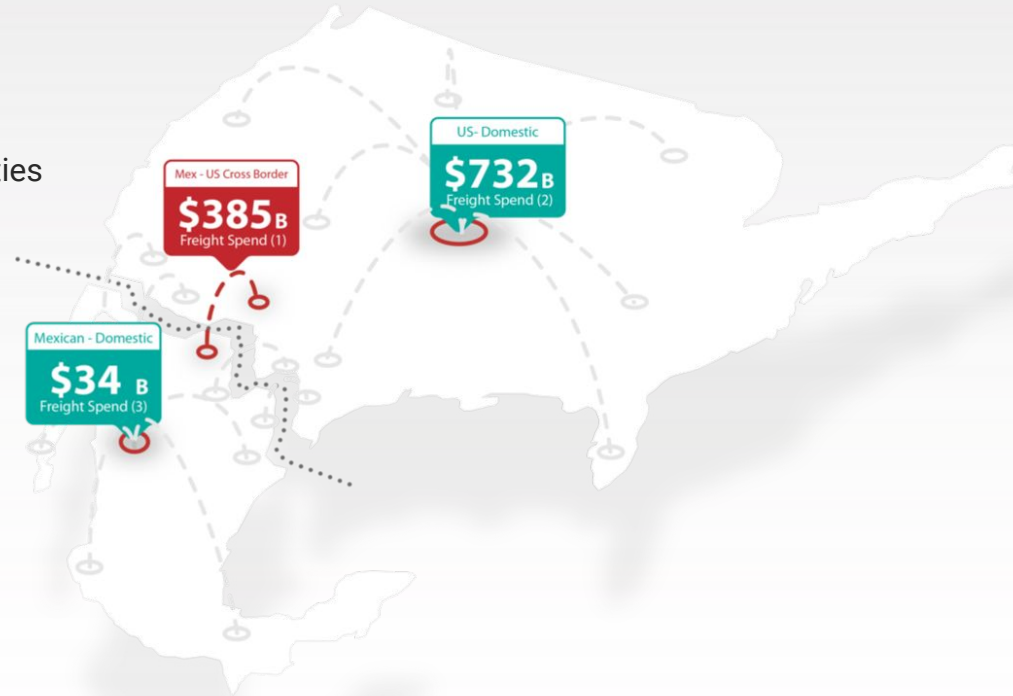

Our innovative freight shipping technology **speeds up and simplifies** shipping across borders, connecting shippers with a vast network of trusted carriers and drivers and providing transparent pricing for available cargo capacity on both sides of the border.

Opportunity: Massive Market with Extreme Inefficiencies

- **Fragmented** and inefficient **market** creates opportunities
- **Lack of pricing transparency**
- **Inefficient** matching
- **Low technology** penetration
- Cross-border **complexity**

Revolutionizing Cross-border Shipping

Our mission is to **revolutionize cross-border shipping** by providing carriers with increased growth opportunities and shippers with flexibility, visibility and simplicity for the once-complex process of international over-the-road (OTR) shipping.

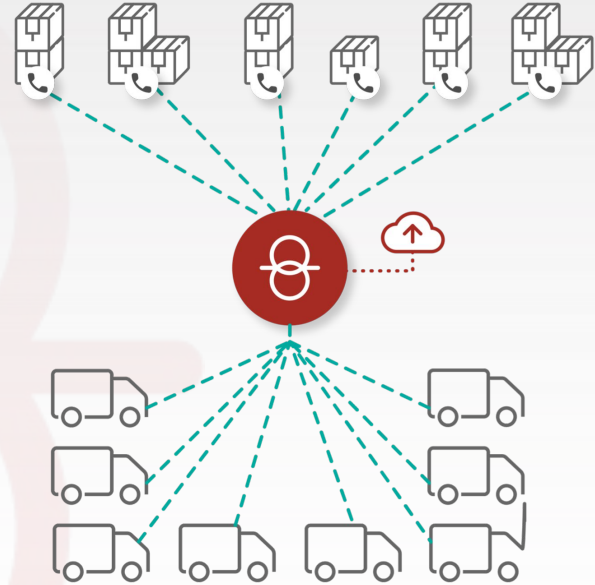

Traditional Broker

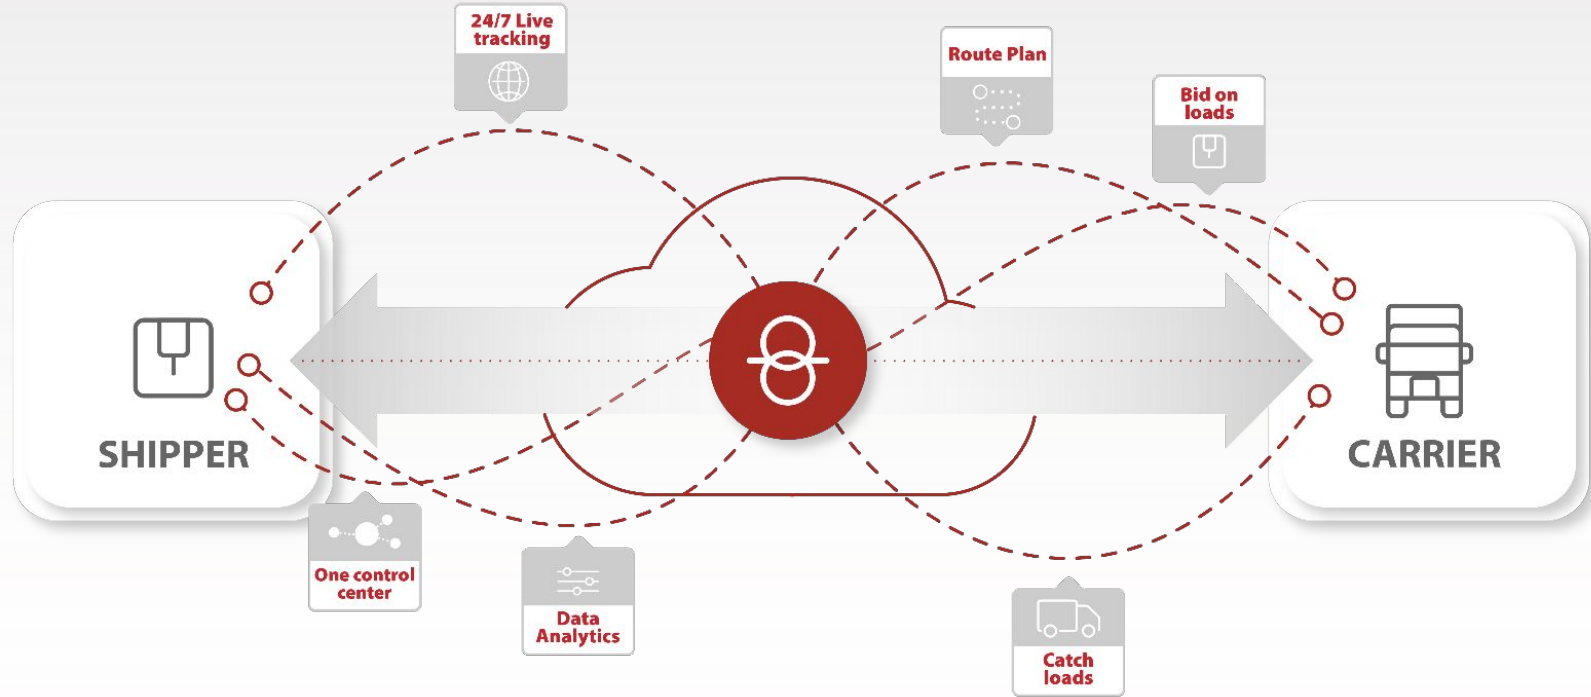

A complex and broken model that results in bad outcomes for many players in the ecosystem.

FR8APP

Fr8App automates the process, making transportation more efficient and reducing logistic costs.

Our Technology Reduces Waste & Inefficiency

Security & Visibility

Visibility over time through Fr8App

Internal track and trace

Proprietary Software – GFT

Real-time delivery time updates based on traffic

External Provider – Project44, RC

Cell Phone/App Tracking

Software Solutions Add Extra Value

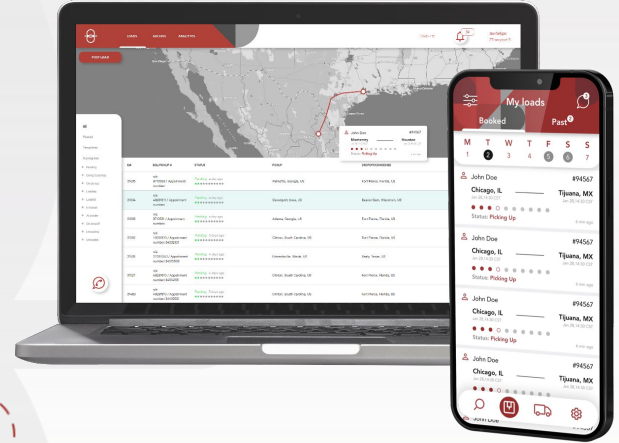

FR8tms

Shipments cross border quickly, safely, and avoids delays with Fr8tms (Transportation management system)

Shippers post their loads, the destination-anywhere in the USA, Mexico or Canada-and the desired price and match with a secure carrier quickly. Once the shipment is on its way, real-time 24/7 tracking and updates are provided.

AI
core
platform

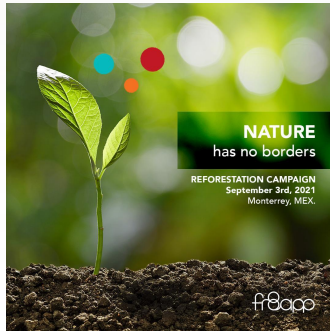

FR8fms

With Fr8fms (Fleet Management System), carriers streamline daily operations and get paid faster

Carriers match desired loads on favorite routes at the desired rates they want. With real-time 24/7 tracking, they spend less time reporting updates on truck locations and focus more on matching loads and data/pattern analysis..

Committed to the Environment

Leveraging our technology to reduce the carbon footprint by **optimizing empty miles** and **reducing paper consumption**.

Building Relationships With Key Players

- Growing **strategic accounts** by building deep and long term relationships, providing excellent service combined with technology. Fast growing customer base with enterprise accounts and needs for multiple layers of service.

SAMSUNG

and more...

- Integrating with other technology companies in the industry to provide a all-in one solution to target all the inefficiencies in the transportation industry.
